# Alogliptin

Revised: June 21, 2021.

CASRN: 850649-61-5

# **Drug Levels and Effects**

## Summary of Use during Lactation

No information is available on the clinical use of alogliptin during breastfeeding. An alternate drug may be preferred, especially while nursing a newborn or preterm infant. Monitoring of the breastfed infant's blood glucose is advisable during maternal therapy with alogliptin.[1]

## **Drug Levels**

Maternal Levels. Relevant published information was not found as of the revision date.

Infant Levels. Relevant published information was not found as of the revision date.
