

Using GST for the First Time

Created: April 23, 2008; Updated: June 15, 2010.

Downloading GST

Where can I download GST?

The GST are utilities completely integrated into the Genome Workbench (Gbench) program. You can download the latest version of Genome Workbench at the [Download](#) section of the Genome Workbench website.

Please note: We assume that a user has a working knowledge of Genome Workbench before using GST. To learn how to use Genome Workbench, go to the [tutorial](#) page of the Genome Workbench site. **(04/23/08)**

Loading Data to GST

Where do I find instructions for loading data to GST?

For instructions showing how to load private GWAS data to GST, go to the “[Using GST to Study Genome Wide Association \(GWAS\) Data](#)” section of this document.

Finding Help using GST

If I have a question, suggestion, or request about using the GST, who should I contact?

For questions related to the Gbench SNP tools, contact the SNPdev group at snp-admin@ncbi.nlm.nih.gov

For Questions related to the general function of Gbench, please contact gbench@ncbi.nlm.nih.gov, or click “Help” in the toolbar at the top of the Gbench pane, to release a dropdown menu. Select “Send Feedback”, to start the “Genome Workbench Feedback Wizard”, which will guide you through the steps of submitting feedback to the Gbench team, who will contact you if your request requires a response.

To report bugs you find while using Gbench, contact gbench-bugs@ncbi.nlm.nih.gov

Please note : We assume that a user has a working knowledge of Genome Workbench (Gbench) before using GST. To learn how to use Gbench, go to the [tutorial](#) page of the Gbench site.
