

Mesna

Revised: April 15, 2023.

CASRN: 19767-45-4

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the clinical use of mesna during breastfeeding. Because it is used with toxic drugs such as ifosfamide, the manufacturer recommends to not breastfeed during treatment and for 1 week after the last dose of mesna or ifosfamide.
