

Trofinetide

Revised: April 15, 2023.

CASRN: 853400-76-7

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the use of trofinetide during breastfeeding. If trofinetide is required by the mother, it is not a reason to discontinue breastfeeding. Until more data are available, trofinetide should be used with careful infant monitoring for diarrhea and proper weight gain.

Drug Levels

Maternal Levels. Relevant published information was not found as of the revision date.

Infant Levels. Relevant published information was not found as of the revision date.
