Avacincaptad Pegol

Revised: August 15, 2023.

CASRN: 1491144-00-3

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the use of avacincaptad pegol during breastfeeding. Since only a small dose is injected intravitreally into the eye, it is unlikely that a clinically relevant amount would reach the infant in breastmilk.

Drug Levels

Maternal Levels. Relevant published information was not found as of the revision date.

Infant Levels. Relevant published information was not found as of the revision date.

Effects in Breastfed Infants

Relevant published information was not found as of the revision date.

Effects on Lactation and Breastmilk

Relevant published information was not found as of the revision date.

Substance Identification

Substance Name

Avacincaptad Pegol
