

**Table 5. Proportions of respondents endorsing a USQ-NB item and *not* attributing it to a UTI.**

ITEM:	Patients (SCI, SB, CG)	Controls
Cloudy Urine	13.3 *	83.3
Bad smelling Urine	13.0 *	93.1
Darker Urine	19.1 *	94.7
Blood in Urine	59.6	75.0
Increased Frequency of Spasms	32.0 *	87.5
Increased Urgency	35.9 *	97.0
Increased Catheterization	39.4 *	100
Increased Incontinence	27.9 *	100
Increased Urine Leakage	37.0 *	97.7
Reduced Urine Volume during Catheterization	52.7	100
Pain in Abdomen	64.8	84.2
Pain in Lower Back	57.1	100
Pain in Legs	60.1	100
Burning on Catheterization	71.0	100
Burning on Passing Urine	78.3	50
Body Position Pain	53.4	100
Fever	42.3 *	100
Fatigue	29.7 *	98.4
Generally not Feeling Well	24.7 *	94.6
Muscle Aches	32.3 *	98.5
Altered Sleep Patterns	42.4 *	100
Increased Irritability	35.9 *	100
Headaches	41.4 *	100
Dizziness	62.4	100
Rigor	51.8	100
Abdominal Bloating	51.3	100
Nausea	53.8	100
Loss of Appetite	60.1	100
Bowel Pattern Changes	46.2 *	100

NOTE:

\* 50% or more of the patient sample that endorsed this symptom also attributed it to a UTI at least some of the time. Values in the table that are *less* than 50% represent a minority of the endorsers *never* attributed the symptom to a UTI.
